INDEPENDENT AUDITOR'S REPORT

To the Officials of Jefferson County, Iowa:

We have audited the accompanying financial statements of the governmental activities, each major fund and the aggregate remaining fund information of Jefferson County, Iowa, as of and for the year ended June 30, 2011, which collectively comprise the County's basic financial statements listed in the table of contents. These financial statements are the responsibility of Jefferson County, Iowa's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund and the aggregate remaining fund information of Jefferson County, Iowa at June 30, 2011, and the respective changes in financial position for the year then ended in conformity with U.S. generally accepted accounting principles.

In accordance with Government Auditing Standards, we have also issued our report dated February 22, 2012 on our consideration of Jefferson County, Iowa's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be considered in assessing the results of our audit.

Management's Discussion and Analysis, Budgetary Comparison Information and the Schedule of Funding Progress for the Retiree Health Plan on pages 3 through 8 and 29 through 32 are not required parts of the basic financial statements, but are supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. We did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Jefferson County, Iowa's basic financial statements. We previously audited, in accordance with the standards referred to in the second paragraph of this report, the financial statements for the six years ended June 30, 2010 (which are not presented herein) and expressed unqualified opinions on those financial statements. The financial statements for the three years ended June 30, 2004 (which are not presented herein) were audited by other auditors, who expressed unqualified opinions on those financial statements. Other supplementary information included in Schedules 1 through 11, is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in our audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

MANAGEMENT'S DISCUSSION AND ANALYSIS

Jefferson County, Iowa, provides this Management's Discussion and Analysis of its financial statements. This narrative overview and analysis of the financial activities is for the fiscal year ended June 30, 2011. We encourage readers to consider this information in conjunction with the County's financial statements, which follow.

2011 FINANCIAL HIGHLIGHTS

- The County's Governmental funds' revenues increased \$535,971 from fiscal 2010 to fiscal 2011.
- The County's Governmental funds' expenses increased \$578,331 in fiscal 2011 compared to fiscal 2010. Roads and transportation expenses increased by \$323,590.
- The County's governmental fund balances decreased 1.3%, or \$218,629, from June 30, 2010 to June 30, 2011.

USING THIS ANNUAL REPORT

The annual report consists of a series of financial statements and other information, as follows:

Management's Discussion and Analysis introduces the basic financial statements and provides an analytical overview of the County's financial activities.

The Government-wide Financial Statements consist of a Statement of Net Assets and a Statement of Activities. These provide information about the activities of Jefferson County, Iowa as a whole and present an overall view of the County's finances.

The Fund Financial Statements tell how governmental services were financed in the short term as well as what remains for future spending. Fund financial statements report Jefferson County, Iowa's operations in more detail than the government-wide statements by providing information about the most significant funds. The remaining statements provide financial information about activities for which Jefferson County, Iowa acts solely as an agent or custodian for the benefit of those outside of County government (Agency Funds).

Notes to Financial Statements provide additional information essential to a full understanding of the data provided in the basic financial statements.

Required Supplementary Information further explains and supports the financial statements with a comparison of the County's budget for the year and the schedule of funding progress for the retiree health plan.

Other Supplementary Information provides detailed information about the nonmajor governmental Funds and the individual Agency Funds.

REPORTING THE COUNTY'S FINANCIAL ACTIVITIES

Government-wide Financial Statements

One of the most important questions asked about the County's finances is, "Is the County as a whole better off or worse off as a result of the year's activities?" The Statement of Net Assets and the Statement of Activities report information which helps answer this question. These statements include all assets and liabilities using the accrual basis of accounting and the economic resources measurement focus, which is similar to the accounting used by most private-sector companies. All of the current year's revenues and expenses are taken into account, regardless of when cash is received or paid.

The Statement of Net Assets presents all of the County's assets and liabilities, with the difference between the two reported as "net assets". Over time, increases or decreases in the County's net assets may serve as a useful indicator of whether the financial position of the County is improving or deteriorating.

The Statement of Activities presents information showing how the County's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will not result in cash flows until future fiscal periods.

The County's governmental activities are presented in the Statement of Net Assets and the Statement of Activities. Governmental activities include public safety and legal services, physical health and social services, mental health, county environment and education, roads and transportation, governmental services to residents, administration, interest on long-term debt and capital projects. Property tax and state and federal grants finance most of these activities.

Fund Financial Statements

The County has two kinds of funds:

- 1) Governmental funds account for most of the County's basic services. These focus on how money flows into and out of those funds, and the balances left at year-end that are available for spending. The governmental funds include:
 1. The General Fund,
 2. The Special Revenue Funds, such as Mental Health, Rural Services and Secondary Roads,
 3. Capital Projects Funds, such as the DHS Building Project,
 4. The Debt Service Fund.

These funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund financial statements provide a detailed, short-term view of the County's general governmental operations and the basic services it provides. Governmental fund information helps determine whether there are more or fewer financial resources that can be spent in the near future to finance the County's programs.

The required financial statements for governmental funds include a balance sheet and a statement of revenues, expenditures and changes in fund balances.

- 2) Fiduciary funds are used to report assets held in a trust or agency capacity for others which cannot be used to support the County's own programs. These fiduciary funds include Agency Funds that account for schools, emergency management services and the County Assessor, to name a few.

The required financial statement for fiduciary funds is a statement of fiduciary assets and liabilities.

Reconciliations between the government-wide financial statements and the fund financial statements follow the fund financial statements.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

As noted earlier, net assets may serve over time as a useful indicator of financial position. Jefferson County, Iowa's combined net assets decreased from \$16,957,651 to \$16,739,022 at June 30, 2011. The analysis that follows focuses on the changes in the net assets for governmental activities.

INDIVIDUAL MAJOR FUND ANALYSIS

As Jefferson County, Iowa completed the year, its governmental funds reported a combined fund balance of \$3,619,086, a decrease of \$335,253 compared to last year's total of \$3,954,339. The decrease in fund balance is primarily attributable to the DHS Building Capital Projects fund. The following are the major reasons for the changes in fund balances of the major funds from the prior year:

- General Fund revenues and expenditures were \$4,919,516 and \$5,097,101, respectively. The ending fund balance showed a decrease of \$177,585 from the prior year to \$1,176,859.
- The County has continued to look for ways to effectively manage the cost of mental health services. For the year, expenditures totaled \$1,179,741, an increase of 11.3% from the prior year. The Mental Health Fund balance at year end decreased by \$32,075 from the prior year.
- Rural services revenues increased \$153,334 from the prior year. The ending fund balance increased \$11,218 from the prior year.
- Secondary Roads Fund expenditures increased by \$640,852 from the prior year. This increase in expenditures resulted in an increase in the Secondary Roads Fund ending balance of \$119,717, or 10.5%. The previous year's increase in the fund balance was \$422,366.

BUDGETARY HIGHLIGHTS

Over the course of the year, Jefferson County, Iowa amended its budget twice. The amendments were made on August 16, 2010 and May 16, 2011, and resulted in an increase in budgeted disbursements mainly in the capital projects function of \$597,618.

Even with this amendment, the County underspent original budgeted expenditures of \$10,581,214 by \$342,168 for the year ended June 30, 2011.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

At June 30, 2011, Jefferson County, Iowa had \$14,440,782 invested in a broad range of capital assets (net of depreciation), including land, public safety equipment, buildings, park facilities, roads and bridges. This is a net increase (including additions and deletions) of \$35,536, or .25% more than last year.

The County had depreciation expense of \$924,187 in fiscal year 2011 and total accumulated depreciation of \$13,662,309 at June 30, 2011.

More detailed information about the County's capital assets is presented in Note 4 to the financial statements.

Long-Term Debt

At June 30, 2011 and 2010, Jefferson County, Iowa's long-term debt consisted of the following:

Outstanding Debt of Governmental Activities at Year-End

	<u>June 30, 2011</u>	<u>June 30, 2010</u>
Compensated absences	\$ 250,431	\$ 236,508
Capital loan notes	980,000	1,150,000
Capital leases	61,654	75,872
Net OPEB liability	43,057	20,911
Total	\$ <u>1,335,142</u>	\$ <u>1,483,291</u>

The Constitution of the State of Iowa limits the amount of general obligation debt counties can issue to 5% of the assessed value of all taxable property within the County's corporate limits. Jefferson County, Iowa's constitutional debt limit for the 2011 fiscal year is \$31,266,813. Other obligations include compensated absences. Net OPEB liability and capital leases. Additional information about the County's long-term debt is presented in Note 6 to the financial statements.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

Jefferson County, Iowa's elected and appointed officials and citizens considered many factors when setting the fiscal year 2012 budget, tax rates, and the fees that will be charged for various County activities. One of those factors is the economy. Unemployment in the County now stands at 6.7% (October 2011) versus 7.5% a year ago. This compares with the State's unemployment rate of 6.0% and the national rate of 8.5%.

Inflation in the State is slightly higher than the national Consumer Price Index increase. The State's CPI increase was 5.25% for fiscal year 2011 compared with the national rate of 3.52%.

These indicators were taken into account when adopting the budget for 2012 fiscal year. Amounts available for appropriation in the operating budget are \$10,749,551, a decrease of 3.8% from the final 2011 fiscal year budget. The amount of revenue to support the above expenditures is projected to decrease .3% from the final 2011 fiscal year budget to \$10,222,476 with the shortfall budgeted from existing reserve funds. Property and other County taxes supporting the 2012 fiscal year budget increased \$369,033 from the Final 2011 fiscal year budget and makes up 57.7% of the revenue for the 2012 fiscal year budgeted expenditures.

If these estimates are realized, the County's budgetary operating balance is expected to decrease by the close of the 2012 fiscal year by \$527,075, leaving an overall reserve of approximately 24.0% of budgeted 2012 fiscal year expenditures.

GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES
YEAR ENDED JUNE 30, 2011

Net change in fund balances - Total governmental funds \$ (335,253)

Amounts reported for governmental activities in the statement of activities are different because:

Governmental funds report capital outlays as expenditures while governmental activities report depreciation expense to allocate those expenditures over the life of the assets. Depreciation expense exceeded capital outlay expenditures in the current year as follows:

Expenditures for capital assets	\$ 727,707	
Depreciation expense	<u>(924,187)</u>	(196,480)

In the Statement of Activities, the loss on the disposition of capital assets is reported, whereas the governmental funds report the proceeds from the disposition as an increase in Other Financing Sources.

(4,307)

Farm to market funds used to construct infrastructure 165,251

Because some revenues will not be collected for several months after the County's year end, they are not considered available revenues and are deferred or not recorded in the governmental funds.

Property tax 3,317

Proceeds from issuing long-term liabilities provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the Statement of Net Assets. Repayment of long-term liabilities is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the Statement of Net Assets. Debt repayments in the current year are as follows:

Repaid 184,218

Some expenses reported in the Statement of Activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds, as follows:

JEFFERSON COUNTY, IOWA

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2011

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Jefferson County, Iowa is a political subdivision of the State of Iowa and operates under the Home Rule provisions of the Constitution of Iowa. The County operates under the Board of Supervisors form of government. Elections are on a partisan basis. Other elected officials operate independently with the Board of Supervisors. These officials are the Auditor, Treasurer, Recorder, Sheriff, and Attorney. The County provides numerous services to citizens, including law enforcement, health and social services, parks and cultural activities, planning and zoning, roadway construction and maintenance, and general administrative services.

The County's financial statements are prepared in conformity with U.S. generally accepted accounting principles as prescribed by the Governmental Accounting Standards Board.

A. Reporting Entity

For financial reporting purposes, Jefferson County, Iowa has included all funds, organizations, agencies, boards, commissions and authorities. The County has also considered all potential component units for which it is financially accountable and other organizations for which the nature and significance of their relationship with the County are such that exclusion would cause the County's financial statements to be misleading or incomplete. The Governmental Accounting Standards Board has set forth criteria to be considered in determining financial accountability. These criteria include appointing a voting majority of an organization's governing body and (1) the ability of the County to impose its will on that organization or (2) the potential for the organization to provide specific benefits to or impose specific financial burdens on the County.

These financial statements present Jefferson County, Iowa (the primary government) and its component units. The component units discussed below are included in the County's reporting entity because of the significance of their operational or financial relationships with the County.

Blended Component Units - The following component units are entities which are legally separate from the County, but are so intertwined with the County that they are, in substance, the same as the County. They are reported as part of the County and blended into the appropriate funds.

One drainage district has been established pursuant to Chapter 468 of the Code of Iowa for the drainage of surface waters from agricultural and other lands or the protection of such lands from overflow. Although this district is legally separate from the County, it is controlled, managed and supervised by the Jefferson County Board of Supervisors. The drainage district is reported as a Special Revenue Fund. Financial information of the drainage district can be obtained from the Jefferson County Auditor's office.

Jointly Governed Organizations - The County also participates in several jointly governed organizations that provide goods or services to the citizenry of the County but do not meet the criteria of a joint venture since there is no ongoing financial interest or responsibility by the participating governments. The County Board of Supervisors are members of or appoint representatives to the following boards and commissions: Jefferson County Assessor's Conference Board, Jefferson County Emergency Management Commission and Jefferson County Joint E-911 Service Board. Financial transactions of these organizations are included in the County's financial statements only to the extent of the County's fiduciary relationship with the organization and, as such, are reported as Agency Funds of the County.

B. Basis of Presentation

Government-wide Financial Statements - The Statement of Net Assets and the Statement of Activities report information on all of the nonfiduciary activities of the County and its component units. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities are supported by property tax, intergovernmental revenues and other nonexchange transactions.

JEFFERSON COUNTY, IOWA

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2011

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

B. Basis of Presentation (Continued)

The Statement of Net Assets presents the County's nonfiduciary assets and liabilities, with the difference reported as net assets. Net assets are reported in three categories.

Invested in capital assets, net of related debt – consists of capital assets, net of accumulated depreciation/amortization and reduced by outstanding balances for bonds, notes and other debt attributable to the acquisition, construction or improvement of those assets.

Restricted net assets – result when constraints placed on net asset use are either externally imposed or imposed by law through constitutional provisions or enabling legislation.

Unrestricted net assets – consist of net assets not meeting the definition of the two preceding categories. Unrestricted net assets often have constraints on resources imposed by management which can be removed or modified.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. Direct expenses are those clearly identifiable with a specific function. Program revenues include (1) charges to customers or applicants who purchase, use or directly benefit from goods, services or privileges provided by a given function and (2) grants, contributions and interest restricted to meeting the operational or capital requirements of a particular function. Property tax and other items not properly included among program revenues are reported instead as general revenues.

Fund Financial Statements – Separate financial statements are provided for governmental funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements. All remaining governmental funds are aggregated and reported as nonmajor governmental funds.

The County reports the following major governmental funds:

The General Fund is the general operating fund of the County. All general tax revenues and other revenues not allocated by law or contractual agreement to some other fund are accounted for in this fund. From the fund are paid the general operating expenditures, the fixed charges and the capital improvement costs that are not paid from other funds.

Special Revenue:

The MH-DD Services Fund is used to account for property tax and other revenues designated to be used to fund mental health, mental retardation, and developmental disabilities services.

The Rural Services Fund is used to account for property tax and other revenues to provide services which are primarily intended to benefit those persons residing in the County outside of incorporated city areas.

The Secondary Roads Fund is used to account for the road use tax allocation from the state of Iowa, required transfers from the Special Revenue, Rural Services Funds and other revenues to be used for secondary road construction and maintenance.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

B. Basis of Presentation (Continued)

Additionally, the County reports the following funds:

Fiduciary Funds:

Agency Funds are used to account for assets held by the County as an agent for individuals, private organizations, certain jointly governed organizations, other governmental units and/or other funds.

C. Measurement Focus and Basis of Accounting

The government-wide and fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property tax is recognized as revenue in the year for which it is levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been satisfied.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current year or soon enough thereafter to pay liabilities of the current year. For this purpose, the County considers revenues to be available if they are collected within 60 days after year end.

Property tax, intergovernmental revenues (shared revenues, grants and reimbursements from other governments) and interest are considered to be susceptible to accrual. All other revenue items are considered to be measurable and available only when cash is received by the County.

Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, principal and interest on long-term debt, claims and judgments and compensated absences are recorded as expenditures only when payment is due. Capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

Under the terms of grant agreements, the County funds certain programs by a combination of specific cost-reimbursement grants, categorical block grants and general revenues. Thus, when program expenses are incurred, there are both restricted and unrestricted net assets available to finance the program. It is the County's policy to first apply cost-reimbursements grant resources to such programs, followed by categorical block grants, and then by general revenues.

When an expenditure is incurred in governmental funds which can be paid using either restricted or unrestricted resources, the County's policy is to pay the expenditure from restricted fund balance and then from less-restrictive classifications – committed, assigned and then unassigned fund balances.

The County maintains its financial records on the cash basis. The financial statements of the County are prepared by making memorandum adjusting entries to the cash basis financial records.

D. Assets, Liabilities and Fund Equity

The following accounting policies are followed in preparing the financial statements:

Cash, Pooled Investments and Cash Equivalents – The cash balances of most County funds are pooled and invested. Interest earned on investments is recorded in the General Fund, unless otherwise provided by law. Investments are stated at fair value except for non-negotiable certificates of deposit which are stated at cost.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

D. Assets, Liabilities and Fund Equity (Continued)

Property Tax Receivable – Property tax in governmental funds is accounted for using the modified accrual basis of accounting.

Property tax receivable is recognized in these funds on the levy or lien date, which is the date the tax asking is certified by the County Board of Supervisors. Delinquent property tax receivable represents unpaid taxes for the current and prior years. The succeeding year property tax receivable represents taxes certified by the Board of Supervisors to be collected in the next fiscal year for the purposes set out in the budget for the next fiscal year. By statute, the Board of Supervisors is required to certify its budget in March of each year for the subsequent fiscal year. However, by statute, the tax asking and budget certification for the following fiscal year becomes effective on the first day of that year. Although the succeeding year property tax receivable has been recorded, the related revenue is deferred in both the government-wide and fund financial statements and will not be recognized as revenue until the year for which it is levied.

Property tax revenue recognized in these funds become due and collectible in September and March of the fiscal year with a 1 ½% per month penalty for delinquent payments; is based on January 1, 2009 assessed property valuations; is for the tax accrual period July 1, 2010 through June 30, 2011 and reflects the tax asking contained in the budget certified by the County Board of Supervisors in March 2010.

Due from Other Governments – Due from other governments represents amounts due from the State of Iowa, various shared revenues, grants and reimbursements from other governments.

Inventories – Inventories are valued at cost using the first-in, first-out method. Inventories consist of expendable supplies held for consumption. Inventories of governmental funds are recorded as expenditures when consumed rather than when purchased.

Capital Assets – Capital assets, which include property, equipment and vehicles, intangibles, and infrastructure assets acquired after July 1, 1980 (e.g., roads, bridges, curbs, gutters, sidewalks, and similar items which are immovable and of value only to the county), are reported in the governmental activities column in the government-wide Statement of Net Assets. Capital assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation. The costs of normal maintenance and repair that do not add to the value of the asset or materially extend asset lives are not capitalized. Reportable capital assets are defined by the County as assets with initial, individual costs in excess of the following thresholds and estimated useful lives in excess of two years.

<u>Asset Class</u>	<u>Amount</u>
Infrastructure	\$ 65,000
Land, buildings and improvements	25,000
Intangibles	5,000
Equipment and vehicles	5,000

JEFFERSON COUNTY, IOWA

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2011

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

D. Assets, Liabilities and Fund Equity (Continued)

Capital assets of the County are depreciated/amortized using the straight line method over the following estimated useful lives:

<u>Asset Class</u>	<u>Estimated Useful Lives (In Years)</u>
Buildings	25-50
Improvements other than buildings	20-50
Infrastructure	10-65
Intangibles	3-20
Equipment	3-20
Vehicles	5-15

Due to Other Governments – Due to other governments represents taxes and other revenues collected by the County and payments for services which will be remitted to other governments.

Trusts Payable – Trusts payable represents amounts due to others which are held by various County officials in fiduciary capacities until the underlying legal matters are resolved.

Deferred Revenue – Although certain revenues are measurable, they are not available. Available means collected within the current year or expected to be collected soon enough thereafter to be used to pay liabilities of the current year. Deferred revenue in the governmental fund financial statements represents the amount of assets that have been recognized, but the related revenue has not been recognized since the assets are not collected within the current year or expected to be collected soon enough thereafter to be used to pay liabilities of the current year. Deferred revenue consists of property tax receivable and other receivables not collected within 60 days after year end.

Deferred revenue in the Statement of Net Assets consists of succeeding year property tax receivable that will not be recognized as revenue until the year for which it is levied.

Compensated Absences – County employees accumulate a limited amount of earned but unused vacation and sick leave hours for subsequent use or for payment upon termination, death or retirement. A liability is recorded when incurred in the government-wide and fiduciary fund financial statements. A liability for these amounts is reported in governmental fund financial statements only for employees that have resigned or retired. The compensated absences liability has been computed based on rates of pay in effect at June 30, 2011. The compensated absences liability attributable to the governmental activities will be paid primarily by the General and Secondary Roads Funds.

Long-term Liabilities – In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the Statement of Net Assets. Bond issuance costs, if any, are reported as deferred charges and amortized over the term of the related debt.

In the governmental fund financial statements, the face amount of debt issued is reported as other financing sources. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Fund Equity – In the governmental fund financial statements, fund balances are classified as follows:

Nonspendable – Amounts which cannot be spent because they are in a nonspendable form or because they are legally or contractually required to be maintained intact.

JEFFERSON COUNTY, IOWA

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

D. Assets, Liabilities and Fund Equity (Continued)

Restricted – Amounts restricted to specific purposes when constraints placed on the use of the resources are either externally imposed by creditors, grantors or state or federal laws or are imposed by law through constitutional provisions or enabling legislation.

Committed – Amounts which can be used only for specific purposes pursuant to constraints formally imposed by the Board of Supervisors through ordinance or resolution approved prior to year end. Committed amounts cannot be used for any other purpose unless the Board of Supervisors removes or changes the specified use by taking the same action it employed to commit those amounts.

Assigned – Amounts the Board of Supervisors intend to use for specific purposes.

Unassigned – All amounts not included in other classifications.

E. Budgets and Budgetary Accounting

The budgetary comparison and related disclosures are reported as Required Supplementary Information. During the year ended June 30, 2011, disbursements did not exceed the amounts budgeted.

NOTE 2: CASH AND POOLED INVESTMENTS

The County's deposits in banks at June 30, 2011 were entirely covered by federal depository insurance or by the State Sinking Fund in accordance with Chapter 12C of the Code of Iowa. This chapter provides for additional assessments against the depositories to insure there will be no loss of public funds.

The County is authorized by statute to invest public funds in obligations of the United States government, its agencies and instrumentalities; certificates of deposit or other evidences of deposit at federally insured depository institutions approved by the Board of Supervisors; prime eligible bankers acceptances; certain high rated commercial paper; perfected repurchase agreements; certain registered open-end management investment companies; certain joint investment trusts; and warrants or improvement certificates of a drainage district.

The County's funds are all deposited in financial institution depository accounts.

Interest rate risk - The County's investment policy limits the investment of operating funds (funds expected to be expended in the current budget year or within 15 months of receipt) in instruments that mature within 397 days. Funds not identified as operating funds may be invested in investments with maturities longer than 397 days but the maturities shall be consistent with the needs and uses of the County.

Capital Lease Purchase Agreements

The County has entered into a capital lease purchase agreement to lease an ambulance with a historical cost of \$78,340. The following is a schedule of the future minimum lease payments, including interest at 4.96% per annum, and the present value of net minimum lease payments under the agreements in effect at June 30, 2011:

<u>Year Ending June 30,</u>	
2012	\$ 17,725
2013	17,725
2014	17,725
2015	14,772
Total minimum lease payments	67,947
Less amount representing interest	<u>6,293</u>

Present value of net minimum lease payments \$ 61,654

Payments under capital lease purchase agreements totaled \$17,725 for the year ended June 30, 2011.

NOTE 7: LANDFILL CLOSURE AND POSTCLOSURE CARE COSTS

Jefferson County, Iowa is a member of a multi-government 28E agreement established in 1974. This agreement provides the public authority for the Southeast Multi-County Solid Waste Agency (SEMCO) to operate under a separate Board of Directors and provide municipal solid waste landfill services. SEMCO, therefore, is required by state and federal laws and regulations to make annual contributions to finance closure and postclosure care costs. Any additional costs that might arise from changes in regulations or technology are anticipated to be covered by increases in rates paid by future landfill users.

NOTE 8: PENSION AND RETIREMENT BENEFITS

The County contributes to the Iowa Public Employees Retirement System (IPERS), which is a cost-sharing multiple-employer defined benefit pension plan administered by the State of Iowa. IPERS provides retirement and death benefits which are established by state statute to plan members and beneficiaries. IPERS issues a publicly available financial report that includes financial statements and required supplementary information. The report may be obtained by writing to IPERS, P.O. Box 9117, Des Moines, Iowa, 50306-9117.

NOTE 8: PENSION AND RETIREMENT BENEFITS (Continued)

Most regular plan members are required to contribute 4.50% of their annual covered salary and the County is required to contribute 6.95% of covered salary. Certain employees in special risk occupations and the County contribute an actuarially determined contribution rate. Contribution requirements are established by state statute. The County's contributions to IPERS for the years ended June 30, 2011, 2010 and 2009 were \$288,433, \$275,120 and \$234,385, respectively, equal to the required contribution for each year.

NOTE 9: OTHER POSTEMPLOYMENT BENEFITS (OPEB)

Plan Description. The County operates a single-employer retiree benefits plan which provides medical/prescription drug benefits for retirees and their spouses. There are 85 active and 5 retired members in the plan. Participants must be age 55 or older at retirement.

The medical/prescription drug benefits are provided through a fully insured medical plan with Wellmark. Retirees under age 66 pay the same premium for the medical/prescription drug benefit as active employees, which results in an implicit rate subsidy and an OPEB liability.

Funding Policy. The contribution requirements of plan members are established and may be amended by the County. The County currently finances the retiree benefit plan on a pay-as-you-go basis.

Annual OPEB Cost and Net OPEB Obligation. The County's annual OPEB cost is calculated based on the annual required contribution (ARC) of the County, an amount actuarially determined in accordance with GASB Statement No. 45. The ARC represents a level of funding which, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities over a period not to exceed 30 years.

The following table shows the components of the County's annual OPEB cost for the year ended June 30, 2011, the amounts actually contributed to the plan and changes in the County's net OPEB obligation:

Annual required contribution	\$	66,173
Interest on net OPEB obligation		2,647
Adjustment to annual required contribution		(1,412)
Annual OPEB cost		67,408
Contributions made		(45,262)
Increase in net OPEB obligation		22,146
Net OPEB obligation beginning of year		20,911
Net OPEB obligation end of year	\$	43,057

For calculation of the net OPEB obligation, the actuary has set the transition day as July 1, 2009. The end of year net OPEB obligation was calculated by the actuary as the cumulative difference between the actuarially determined funding requirements and the actual contributions for the year ended June 30, 2011.

For the year ended June 30, 2011, the County contributed \$45,262 to the medical plan. Plan members eligible for benefits contributed \$30,300, or 66.9% of the premium costs.

The County's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan and the net OPEB obligation are summarized as follows:

<u>Year Ended</u> <u>June 30,</u>	<u>Annual</u> <u>OPEB Cost</u>	<u>Percentage of</u> <u>Annual OPEB</u> <u>Cost Contributed</u>	<u>Net</u> <u>OPEB</u> <u>Obligation</u>
2010	\$ 66,173	68.4%	\$ 20,911

NOTE 9: OTHER POSTEMPLOYMENT BENEFITS (OPEB) (Continued)

Funding Status and Funding Progress: As of July 1, 2009, the most recent actuarial valuation date for the period July 1, 2010 through June 30, 2011, the actuarial accrued liability was \$497,382, with no actuarial value of assets, resulting in an unfunded actuarial accrued liability (UAAL) of \$497,382. The covered payroll (annual payroll of active employees covered by the plan) was \$3,796,032 and the ratio of the UAAL to covered payroll was 13.10%. As of June 30, 2011, there were no trust fund assets.

Actuarial Methods and Assumptions. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality and the health care cost trend. Actuarially determined amounts are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The Schedule of Funding Progress, presented as Required Supplementary Information in the section following the Notes to Financial Statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Projections of benefits for financial reporting purposes are based on the plan as understood by the employer and the plan members and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

As of July 1, 2010 actuarial valuation date, the projected unit credit actuarial cost method was used. The actuarial assumptions includes a 4% discount rate based on the County's funding policy. The projected annual medical trend rate is 10%. The ultimate medical trend rate is 5%. The medical trend rate is reduced 0.5% each year until reaching the 5% ultimate trend rate.

Mortality rates are from the RP2000 Combined Mortality Table, applied on a gender-specific basis. Annual retirement and termination probabilities were developed using the alternate valuation method as prescribed in GASB 45.

Projected claim costs of the medical plan are \$453 per month for retirees and \$1,069 per month for retirees and their spouse. The salary increase rate was assumed to be 3% per year. The UAAL is being amortized as a level percentage of projected payroll expense on an open basis over 30 years.

NOTE 10: RISK MANAGEMENT

Jefferson County, Iowa is a member in the Iowa Communities Assurance Pool, as allowed by Chapter 331.301 of the Code of Iowa. The Iowa Communities Assurance Pool (Pool) is a local government risk-sharing pool whose 645 members include various governmental entities throughout the State of Iowa. The Pool was formed in August 1986 for the purpose of managing and funding third-party liability claims against its members. The Pool provides coverage and protection in the following categories: general liability, automobile liability, automobile physical damage, public officials' liability, police professional liability, property, inland marine and boiler/machinery. There have been no reductions in insurance coverage from prior years.

Each member's annual casualty contributions to the Pool fund current operations and provide capital. Annual operating contributions are those amounts necessary to fund, on a cash basis, the Pool's general and administrative expenses, claims, claims expenses and reinsurance expenses due and payable in the current year, plus all or any portion of any deficiency in capital. Capital contributions are made during the first six years of membership and are maintained to equal 150 percent of the total current members' basis rates or to comply with the requirements of any applicable regulatory authority having jurisdiction over the Pool.

JEFFERSON COUNTY, IOWA

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2011

NOTE 10: RISK MANAGEMENT (Continued)

The Pool also provides property coverage. Members who elect such coverage make annual operating contributions which are necessary to fund, on a cash basis, the Pool's general and administrative expenses and reinsurance premiums, all of which are due and payable in the current year, plus all or any portion of any deficiency in capital. Any year-end operating surplus is transferred to capital. Deficiencies in operations are offset by transfers from capital and, if insufficient, by the subsequent year's member contributions.

The County's property and casualty contributions to the risk pool are recorded as expenditures from its operating funds at the time of payment to the risk pool. The County's contributions to the Pool for the year ended June 30, 2011 were \$175,285.

The Pool uses reinsurance and excess risk-sharing agreements to reduce its exposure to large losses. The Pool retains general, automobile, police professional, and public officials' liability risks up to \$350,000 per claim. Claims exceeding \$350,000 are reinsured in an amount not to exceed \$2,650,000 per claim. For members requiring specific coverage from \$3,000,000 to \$10,000,000, such excess coverage is also reinsured. Property and automobile physical damage risks are retained by the Pool up to \$150,000 each occurrence, each location, with excess coverage reinsured by the Travelers Insurance Company.

The Pool's intergovernmental contract with its members provides that in the event a casualty claim or series of claims exceeds the amount of risk-sharing protection provided by the member's risk-sharing certificate, or in the event that a series of casualty claims exhausts total members' equity plus any reinsurance and any excess risk-sharing recoveries, then payment of such claims shall be the obligation of the respective individual member. The County does not report a liability for losses in excess of reinsurance or excess risk-sharing recoveries unless it is deemed probable that such losses have occurred and the amount of such loss can be reasonably estimated. Accordingly, at June 30, 2011, no liability has been recorded in the County's financial statements. As of June 30, 2011, settled claims have not exceeded the risk pool or reinsurance coverage since the pool's inception.

Members agree to continue membership in the Pool for a period of not less than one full year. After such period, a member who has given 60 days prior written notice may withdraw from the Pool. Upon withdrawal, payments for all casualty claims and claims expenses become the sole responsibility of the withdrawing member, regardless of whether a claim was incurred or reported prior to the member's withdrawal. Members withdrawing within the first six years of membership may receive a partial refund of their casualty capital contributions. If a member withdraws after the sixth year, the member is refunded 100 percent of its casualty capital contributions. However, the refund is reduced by an amount equal to the annual operating contribution which the withdrawing member would have made for the one year period following withdrawal.

The County also carries commercial insurance purchased from other insurers for coverage associated with workers compensation and employee blanket bond in the amounts of \$1,000,000 and \$300,000, respectively. The County assumes liability for any deductibles and claims in excess of coverage limitations. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

NOTE 11: WORKERS' COMPENSATION

The County is a member of the Iowa Municipalities Workers' Compensation Association (IMWCA) which provides workers' compensation coverage to its members in the amount of \$1,000,000.

NOTE 12: SUBSEQUENT EVENTS

Subsequent events have been evaluated through February 22, 2012, the date that the financial statements were available to be issued.

JEFFERSON COUNTY, IOWA

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION - BUDGETARY REPORTING
YEAR ENDED JUNE 30, 2011

This budgetary comparison is presented as Required Supplementary Information in accordance with Governmental Accounting Standards Board Statement No. 41 for governments with significant budgetary perspective differences resulting from not being able to present budgetary comparisons for the General Fund and each major Special Revenue Fund.

In accordance with the Code of Iowa, the County Board of Supervisors annually adopts a budget on the cash basis following required public notice and hearing for all funds except blended component units and Agency Funds, and appropriates the amount deemed necessary for each of the different County offices and departments. The budget may be amended during the year utilizing similar statutorily prescribed procedures. Encumbrances are not recognized on the cash basis budget and appropriations lapse at year end.

Formal and legal budgetary control is based upon 10 major classes of expenditures known as functions, not by fund. These 10 functions are: public safety and legal services, physical health and social services, mental health, county environment and education, roads and transportation, governmental services to residents, administration, nonprogram, debt service and capital projects. Function disbursements required to be budgeted include disbursements for the General Fund, the Special Revenue Funds, the Debt Service Fund and the Capital Projects Funds. Although the budget document presents function disbursements by fund, the legal level of control is at the aggregated function level, not by fund. Legal budgetary control is also based upon the appropriation to each office or department. During the year, two budget amendments increased budgeted disbursements by \$597,618. The budget amendment is reflected in the final budgeted amounts.

In addition, annual budgets are similarly adopted in accordance with the Code of Iowa by the appropriate governing body as indicated: for the County Extension Office by the County Agricultural Extension Council, for the County Assessor by the County Conference Board, for the E911 System by the Joint E911 Service Board and for Emergency Management Services by the County Emergency Management Commission.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL
REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT
OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS

To the Officials of Jefferson County, Iowa:

We have audited the accompanying financial statements of the governmental activities, each major fund and the aggregate remaining fund information of Jefferson County, Iowa, as of and for the year ended June 30, 2011, which collectively comprise the County's basic financial statements listed in the table of contents and have issued our report thereon dated February 22, 2012. We conducted our audit in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered Jefferson County, Iowa's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Jefferson County, Iowa's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of Jefferson County, Iowa's internal control over financial reporting.

Our consideration of internal control over financial reporting was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control over financial reporting that might be significant deficiencies or material weaknesses and therefore, there can be no assurance all deficiencies, significant deficiencies or material weakness have been identified. However, as described in the accompanying Schedule of Findings, we identified certain deficiencies in internal control over financial reporting we consider to be material weaknesses.

A deficiency in internal control exists when the design or operation of the control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility a material misstatement of the County's financial statements will not be prevented or detected and corrected on a timely basis. We consider the deficiency in internal control described in Part II of the accompanying Schedule of Findings as Item II-A-11 to be a material weakness.

A significant deficiency is a deficiency or combination of deficiencies in internal control which is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Jefferson County, Iowa's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, non-compliance with which could have a direct and material effect on the determination of financial

statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of non-compliance or other matters that are required to be reported under Government Auditing Standards. However, we noted certain immaterial instances of non-compliance or other matters that are described in Part III of the accompanying Schedule of Findings.

Comments involving statutory and other legal matters about the County's operations for the year ended June 30, 2011 are based exclusively on knowledge obtained from procedures performed during our audit of the financial statements of the County. Since our audit was based on tests and samples, not all transactions that might have had an impact on the comments were necessarily audited. The comments involving statutory and other legal matters are not intended to constitute legal interpretations of those statutes.

Jefferson County, Iowa's responses to findings identified in our audit are described in the accompanying Schedule of Findings. While we have expressed our conclusions on the County's responses, we did not audit Jefferson County, Iowa's responses and, accordingly, we express no opinion on them.

This report, a public record by law, is intended solely for the information and use of the officials, employees and citizens of Jefferson County, Iowa and other parties to whom the County may report, including federal awarding agencies and pass-through entities, and is not intended to be and should not be used by anyone other than these specified parties.

We would like to acknowledge the many courtesies and assistance extended to us by personnel of Jefferson County, Iowa during the course of our audit. Should you have any questions concerning any of the above matters, we shall be pleased to discuss them with you at your convenience.

JEFFERSON COUNTY, IOWA

SCHEDULE OF FINDINGS
YEAR ENDED JUNE 30, 2011

PART I: SUMMARY OF THE INDEPENDENT AUDITOR'S RESULTS

- (a) Unqualified opinions were issued on the financial statements.
- (b) Material weaknesses in internal control over financial reporting were disclosed by the audit of the financial statements.
- (c) The audit did not disclose any non-compliance which is material to the financial statements.

PART II: FINDINGS RELATED TO THE FINANCIAL STATEMENTS

SIGNIFICANT DEFICIENCIES:

II-A-11 Segregation of Duties

Comment – During our review of the internal control structure, the existing procedures were evaluated in order to determine that incompatible duties, from a control standpoint, were not performed by the same employee. This segregation of duties helps to prevent losses from employee error or dishonesty and, therefore, maximizes the accuracy of the County's financial statements. We noted that generally one or two individuals in the offices identified may have control over the following areas for which no compensating controls exist:

	<u>Applicable Offices</u>
1. All incoming mail should be opened by an employee who is not authorized to make entries to the accounting records. This employee should prepare a listing of cash and checks received. The mail should then be forwarded to the accounting personnel for processing. Later, the same listing should be compared to the cash receipt records.	Ag Extension Auditor Recorder Treasurer
2. Bank accounts should be reconciled promptly at the end of each month by an individual who does not sign checks or handle or record cash.	Ag Extension Auditor Recorder Sheriff Treasurer
3. Checks or warrants should be signed by an individual who does not otherwise participate in the preparation of the checks or warrants. Prior to signing, the checks or warrants and the supporting documentation should be reviewed for propriety. After signing, the checks or warrants should be mailed without allowing them to return to individuals who prepare the checks or warrants or approve vouchers for payment.	Ag Extension Auditor Recorder Sheriff Treasurer

Recommendation – We realize that with a limited number of office employees, segregation of duties is difficult. However, each official should review the control procedures of their office to obtain the maximum internal control possible under the circumstances. The official should utilize current personnel to provide additional control through review of financial transactions, reconciliations and reports. Such reviews should be performed by independent persons to the extent possible, and should be evidenced by the initials or signature of the reviewer and the date of the review.

Responses –

Ag Extension – We will review procedures and try to make any necessary changes to improve internal control.

PART III: OTHER FINDINGS RELATED TO REQUIRED STATUTORY REPORTING: (Continued)

- III-F-11 Board Minutes – No transactions were found that we believe should have been approved in the Board minutes but were not. However, in accordance with Code of Iowa Chapter 349.18, minutes are required to be published within one week following approval. The minutes for the meetings held August 9, 2010, January 17, 2011 and February 7, 2011 were not published within one week of approval.

Recommendation – The Board of Supervisors should ensure all minutes are published to comply with Chapter 349.18 of the Code of Iowa.

Response – We will do so from now on.

Conclusion – Response accepted.

- III-G-11 Deposits and Investments – No instances of non-compliance with the deposit and investment provisions of Chapters 12B and 12C of the Code of Iowa and the County's investments policy were noted.

- III-H-11 Resource Enhancement and Protection Certification – The County properly dedicated property tax revenue to conservation purposes as required by Chapter 455A.19(1)(b) of the Code of Iowa in order to receive the additional REAP funds allocated in accordance with subsections (b)(2) and (b)(3).

- III-I-11 County Extension Office – The County Extension Office is operated under the authority of Chapter 176A of the Code of Iowa and serves as an agency of the State of Iowa. This fund is administered by an Extension Council separate and distinct from County operations and, consequently, is not included in Exhibits A or B.

Disbursements during the year ended June 30, 2011 for the County Extension Office did not exceed the amount budgeted.
